Welcome to our deck

We are a design team From Kennesaw, GA that specializes in crafting dynamic lighting displays that transform indoor & outdoor environments into captivating landscapes.

Over the past 2 years, we have spent time building a passion for painting treetop canopies and developing the most vibrant LED Products on the market.

From our CP320 Full spectrum LED Par to our Lumiscapes LED Reels, all of our products are designed to bring the most out of your environment and create a memorable display.

LumiFlora Displays are a unique and fully customizable way to draw the attention of your guests.

LumiScapes

Lumiscapes LED

LED Reels-

Lumiscapes is a versatile system that redefines how we view LED.

Our proprietary technology features 100 individually controlled LEDs per 30-foot section.

Powered by our IP66 Mod Boxes each capable of supporting up to 48 reels (4,800 LEDs) per module, our system caters to endless design possibilities

Lumiscapes

LED Applications

Lumiscapes LED offers versatile solutions for enhancing Tree scapes, scenic walls, entranceways, custom signage, event lighting, cityscapes, Christmas Tree Ceremonies, holiday displays, and more!

With our design methods we can seamlessly integrate our LED systems into nearly any application or element.

Lumiscapes

LumiFlora Panels

Our LED Panels are our signature design and our most popular installation type.

LumiFlora Panels are fully customizable from the floral and foliage type to color scheme and flower density.

As well as full stylistic control over your display, you can also integrate other scenic elements such as logo projectors, themed figurines or other memorabilia.

Standard panel size starts at 6' x 4' however are customizable to any size or shape needed.

Panels can be hung in any orientation including vertically as a wall or used as a backdrop or scenic piece.

User Friendly Control

Stand-alone Systems -

All of our LED products can be pre-configured with color schemes that automatically run a sequence using a standalone controller. This setup requires no user intervention and begins its program as soon as power is turned on.

No need for computers or any complicated software.

Just plug & Play!

Interactive Control Systems-

Our secondary control option lets you use a smart app to choose your display style by connecting to our controllers via Long Range Bluetooth. The app is compatible with all platforms, and we guide you through each step of the setup process. This versatile solution maximizes the capabilities of your display.

Through the app, you can easily select from a list of preprogrammed sequences, switch to your preferred settings, or activate special holiday modes.

The Lumiscapes logo is located in the bottom right corner of the page. It features the brand name "Lumiscapes" in a white, sans-serif font. The letter "i" in "Lumi" is replaced by a stylized white tree icon. The background of the entire page is a dark, atmospheric photograph of a forest at night, with trees illuminated by colorful lights in shades of blue, green, and purple. In the upper right portion of the image, a close-up of a black plastic Lumiscapes controller is visible, showing the brand name and a small tree icon on its top surface.

Product Guarantee & Insurance

Standard Product Guarantee

We proudly offer a guarantee for all our products, ensuring they function effectively for a total of 50,000 hours of LED use. This guarantee is included as part of our service fees, as a commitment to our quality and products performance.

Extended Insurance & Yearly Maintenance

In addition to our standard guarantee, we offer an extended insurance and maintenance plan for an additional 11% of the total cost of the product.

This plan includes:

- Coverage Period: **3 years from the date of purchase.**
- Comprehensive Coverage: This insurance guarantees that if you encounter any issues with the display, we will provide a replacement or necessary repairs within 7 days of receiving your claim. **The coverage has no limits during the 3-year period.**
- Included Services: Our insurance and maintenance plan covers a wide range of services, including:
 - Changes to the color program
 - Repairs or replacements of fixtures, control consoles, and networking components
- **Annual Checkup: A yearly inspection of the system will be conducted to identify and address any potential issues proactively.**
